## **40'x10' Containerized Shower and Restroom Facilities**

10 Customer built shower facilities designed to provide access to basic hygiene inside of mass care facilities. Each container has between 6 and 8 shower points with self contained electric, ventilation and hot water. There 6 units that are ADA compliant and 4 that are standard sized. There is 1 dedicated restroom container with the same electric, ventilation and water capability. The containers come with all external electrical hardware, aluminum decking and stairs for installation. There are 11 containers available and they are being offered as a single lot. Interested parties are responsible for pick up and transportation from the storage site in Ft. Collins, CO.
