New and unbuilt in original package. Package condition as pictured.

101 Terminator T-800 Endoskull 1:1 Replica - Beagle Bi

A custom-made prop replica of the T-800 Endoskull as seen in "Terminator". Endoskull was reportedly crafted by artist Beagle Bill (Bill Morris) but is signed "Dennis Bouffard 2011" on the hard palate portion of the skull. Piece is in life-size 1:1 scale and features a weathered, chrome finish. Overall, this prop is in great visual condition with light to moderate signs of display/storage wear such as slight surface scratching, some cracking at the joints of the base of the jaw, and one missing tooth on the bottom jaw. Eyes appear to have featured a light-up function, however, the wiring has been cut so we unfortunately cannot test for functionality. The left eye is considerably more loose than the right. There appears to be poster mounting putty present to keep the jaw joints connected to the skull and mandible. As this item came from an avid Terminator collector, it is difficult for us to discern which artist played which role in the production of this item as there is no accompanying Certificate of Authenticity or apparent documentation. Please see photos for further condition detail.
