

3.) One pair of tested 14 kt. white gold blue sapphire and diamond pierced earrings. The two oval sapphires have a total weight of approximately 1.00 cts. The two round have a total weight of approximately .20 ct. The diamonds are a combination of brilliant and single cut diamonds. They have a total weight of approximately 1.03 cts.; of *G-H in color and SI internally. The earrings weigh 3.5 dwts.

4.) One stamped 18 kt. white gold ladies emerald and baguette cut diamond ring. The top section of the ring is pear shaped, and features three levels. The pear shaped emerald is mounted in the top level. It measures 9.2 mm. x 6 mm. x 3.6 mm.; weighing approximately .97 ct. The second level features thirteen brilliant cut diamonds. They have a total weight of approximately .39 ct.; of *G-H in color and VS internally. Two diamonds are chipped. The lower level features baguette cut diamonds, mounted in a ballerina design. The thirty-two tapered baguettes range in size; having a total weight of approximately .95 ct. They are of *G-H in color and VS-I-1 internally. One diamond is chipped. The total diamond weight is approximately 1.34 cts. The ring weighs 4.1 dwts.

5.) One tested 18kt. yellow gold ladies Tanzanite and diamond ring. The oval cut Tanzanite measures 9.2 mm. x 7.0 mm. x 5.1 mm.; weighing approximately 2.31 cts. The twelve diamonds are channel set, having a total weight of approximately .48 ct. They are of *G-H in color and SI internally. The ring weighs 11.4 dwts.

6. Pair of 14 kt. yellow gold post and clutch ruby earrings weighing 1.61 dwt. Each earring is set with three oval faceted rubies having a total weight of approximately 3.00 cts.

7.) One tested 14 kt. yellow gold green Tsavorite garnet and diamond ring. The round cut Tsavorite weighs approximately .59 ct. It is bruised in three places. Eight

brilliant cut and six tapered baguette cut diamonds have a total weight of approximately .54 ct. They are of *G-I in color and SI to I-1 internally. The ring weighs 3.4 dwts.

8.) One stamped 14 kt. yellow gold ladies Fluorite ring. The center Fluorite is a trilliant cut measuring 10.3 mm. x 10.3 mm. x 7.1 mm.; weighing approximately 4.31 cts. Nine brilliant cut and eight princess cut Fluorite are channel set. They have a total weight of approximately 1.02 cts. The total weight of the stones is approximately 5.32 cts. The ring weighs 6.8 dwts.

9.) One stamped 14 kt. yellow gold ladies Tanzanite and Ruby ring. The tanzanite measures approximately 8 mm. x 6 mm. x 4 mm.; weighing approximately 1.35 cts. It is scratched, nicked and chipped. The two Rubies are lead glass filled, having a total weight of approximately .28 ct. The ring weighs 7.1 dwts.

11.) One stamped 14 kt. yellow gold ladies double row, diamond band. The ten diamonds have a total weight of approximately 1.00 cts. They are of medium light brown color and SI-2 to I-1 internally. The ring weighs 3.5 dwts.

12.) One stamped 14 kt. yellow gold ladies *lead glass filled ruby and diamond ring. The Ruby measures approximately 8 mm. x 6.2 mm. x 3.9 m.; weighing approximately 1.62 cts. It is surrounded by ten brilliant cut diamonds, having a total weight of approximately 1.00 cts. The ring weighs 4.4 dwts.

13.) One tested 14 kt. white gold ladies blue sapphire and diamond ring. The oval cut sapphire measures 9.9 mm. x 7.9 mm. x 4.4 mm.; weighing approximately 2.89 cts. It is surrounded by twelve brilliant cut diamonds, which are prong set. They have a total weight of approximately .50 ct.; of *G-H in color and I-1 internally. The ring weighs 5.1 dwts.

14.) One tested 14 kt. yellow gold Spessartite garnet and diamond ring. The garnet measures 8.9 mm. x 7.3 mm. x 4.1 mm.; weighing approximately 2.27 cts. The twelve diamonds have a total weight of approximately .36 ct.; of *G-H in color and I-1 internally. One diamond is chipped. The ring weighs 6.4 dwts.

15.) One stamped 14 kt. yellow gold ladies pink and green tourmaline ring. The pink tourmaline is oval in shape, measuring 13.1 mm. x 8.2 mm. x 5.4 mm.; weighing approximately 3.73 cts. It is accented on either side by and emerald cut green tourmaline, having a total weight of approximately 1.10 cts. The total weight of the tourmalines is approximately 4.83 cts. The ring weighs 6.5 dwts.

16.) One stamped 14 kt. white gold tanzanite and tsavorite ring. The rectangular, cushion cut tanzanite measures 8.7 mm. x 7.3 mm. x 5.0 mm. It weighs approximately 2.36 cts. The two tsavorite have a total weight of approximately .65 ct. The ring weighs 4.2 dwts.

17. One stamped 14kt yellow gold pink tourmaline ring weighing 2.83 dwts. It features one oval tourmaline in the center accented by twenty-two smaller tourmaline. The combined weight is approximately 2.17 cts.

18.) One stamped 18 kt. yellow gold Peridot and diamond ring. The Peridot is trilliant cut, measuring 11 mm. x 11 mm. x 6.3 mm.; weighing approximately 4.58 cts. The six diamonds have a total weight of approximately .21 ct. They are of *G-I in color and SI to I-1 internally. The ring weighs 11.0 grams.

19.) One stamped 18 kt. yellow gold ladies Peridot and diamond ring. The oval cut Peridot measures 8.22 mm. x 6.72 mm. x 4.00 mm.; weighing approximately 1.55 cts. It is accented by ten brilliant cut diamonds, having a total weight of approximately .15 ct. Six baguette cut diamonds are channel set on either side. The twelve have a total weight of approximately .24 ct. Total diamond weight of the ring is approximately .39 ct. The ring weighs 7.0 dwts.

20.) One stamped 18 kt. white gold ladies blue zircon and diamond ring. The blue zircon is a round brilliant cut, measuring approximately 7.5 mm. x 5.2 mm.; weighing approximately 2.47 cts. It is surrounded by twelve brilliant cut diamonds, having a total weight of approximately .48 ct. They are of *G-H in color and SI internally. The ring weighs 11.5 dwts.

21.) One stamped 18 kt. yellow gold ladies pink tourmaline and diamond ring. The three emerald cut tourmaline are mounted vertically; having a total weight of approximately 1.29 cts. Three diamonds are mounted in vertical rows between the tourmaline. The six have a total weight of approximately .20 ct.; of *H-I in color and SI internally. The ring weighs 9.5 dwts.

22.) One stamped 18 kt. yellow gold ladies tanzanite and diamond ring. The pear shaped tanzanite measures 9.5 mm. x 7 mm. x 5.5 mm.; weighing approximately 2.21 cts. The twelve diamonds have a total weight of approximately .36 ct.; of *G-H in color and SI internally. The ring weighs 6.4 dwts.

24.) One stamped 10 kt. tanzanite band. The seven marquise cut tanzanite have a total weight of approximately 1.45 cts. The ring weighs 2.4 dwts.

25.) One tested 14 kt. white gold ladies diamond "waterfall" design ring. The ring contains nineteen diamonds, having a total weight of approximately 2.01 cts. They are of *H-I in color and I-1 internally. The ring weighs 3.9 dwts.

26 One stamped 14 kt. yellow gold mint green garnet cluster ring, accented by diamonds. Total weight of the garnet is approximately 0.96 carat. The ring weighs 1.99 dwts.

27. One stamped 14kt yellow gold Tsavorite garnet cluster ring weighing 1.99 dwt. The total weight of the Tsavorite is approximately 1.12 ct.

28. One stamped 14 kt. yellow gold ruby ring, weighing 1.80 dwts. The faceted round, lead glass filled ruby, weighs approximately 2.73 ct..

29.) One stamped 14 kt. yellow gold ladies tanzanite cluster ring. The ring contains thirteen round cut and eight marquise cut tanzanite. The total weight is approximately 2.85 cts. The ring weighs 2.4 dwts.

30.) One stamped 14 kt. yellow gold tsavorite garnet ring. The fourteen garnets have a total weight of approximately 1.40 cts. They very poor polish. The ring weighs 2.6 dwts.

31.) One stamped 18 kt. yellow gold pink tourmaline and diamond ring. The oval, faceted, tourmaline measures 11.7 mm. x 9.6 mm. x 7.4 mm.; weighing approximately 5.34 cts. The four diamonds have a total weight of approximately .28 ct.; of *G-I in color and SI-2 to I-1 internally. The ring weighs 7.5 dwts.

32. One stamped 14kt yellow gold Tanzanite ring weighing 1.80 dwts. It contains four tanzanite trillions. One stone missing the total weight is approximately 1.84 cts.

33. One stamped 14kt yellow gold Tanzanite and diamond ring weighing 1.16 dwts. It contains a trillion cut Tanzanite, weighing approximately .25 ct. The two round full cut diamonds have a total weight of approximately 0.02 ct.

34.) One pair of stamped 14 kt. yellow gold Peridot and diamond earrings. The Peridot are trilliant cut, having a total weight of approximately 2.75 cts. The six diamonds have a total weight of approximately .10 ct. The pair weigh 2.0 dwts.

35.) One stamped 14 kt. yellow gold ladies blue topaz and diamond ring. The oval cut topaz measures 10.9 mm. x 9.1 mm. x 6.5 mm.; weighing approximately 4.78 cts. Four diamonds are mounted in a vertical row on either side. The eight have a total weight of approximately .16 ct.; of *H-I in color and SI-2 to I-1 internally. The ring weighs 5.7 dwts.

47.) One stamped 10 kt. yellow gold ladies multi stone bracelet. The bracelet measures 7" in length. It features twelve flowers consisting of six pear shaped stones. There are two blue topaz flowers, two amethyst flowers, two peridot flowers, two garnet flowers, and assumed two aquamarine flowers. The total weight of the gemstones is approximately 28.44 cts. The bracelet weighs 10.5 dwts.

48.) One 14kt white gold and diamond heart pendant suspended from a 14kt. white gold box chain weighing, a total of 4.50 dwts. The total weight of the diamonds is approximately 1.00 cts.; of J-K color, and the clarity is I1.

49.) One 14kt yellow gold and diamond heart pendant suspended from a fine 14 kt. yellow gold chain weighing 2.57 dwt. The weight of the diamonds is 0.25 ct. color I to J clarity I1.

50a.) One stamped 14 kt. yellow gold diamond engagement ring. The diamond is pear shaped, measuring approximately 9.5 mm. x 6 mm. x *4.0 mm.; weighing approximately 1.38 cts. It is of *J-K in color and I-1 internally. It is accented on either side by four brilliant cut diamonds. The eight have a total weight of approximately .14 ct.; of *H-I in color and SI-2 to I-1 internally. The ring weighs 1.7 dwts.

50b.) One tested 14 kt. yellow gold diamond insert ring. The ring features sixteen single cut diamonds, having a total weight of approximately .16 ct.; of *I-J in color and SI to I-1 internally. Most have poor polish. The ring weighs 1.9 dwts.
