Podiatry Medical Equip & Supplies - Streator 6/8/2021-6/22/2021

LOT #**14 Mettler 706 Ultrasound Unit**

The Mettler Electronics Sonicator 706 Ultrasound Machine features a 10 cm² applicator head delivering 1 MHz ultrasound therapy. The Sonicator 706 with the 10cm sound head is ideal for treating shoulders, backs, and other large, muscular areas. Control panel and display signals show treatment modes, times, power units and power output intensity. Self-tuning circuitry enhances system operation and reliability, reduces ongoing service requirements, and troubleshoots problems early.

**LOT #****19 Zimmer ATS 750 Tourniquet System**

The Zimmer ATS 750 Automatic Tourniquet System includes tubing and power cord. Self-check calibration automatically checks the accuracy of the machine calibration each time the unit is powered on. Cuff alert notifies user of cuff status when attempt is made to set the machine to stand-by. Cuff lockout feature prompts the user to confirm the deflation command during bilateral or IVRA procedure in order to reduce complications due to sudden cuff deflation of the second cuff. Uses ambient air. Uses electronic and microprocessor regulated pressure. Single Port System: Uses single port, single bladder cuff. 30 minute battery back-up provides mobility by helping ensure continuous power. Visual and audible alarms activated when an unsafe condition is detected. Self-check calibration each time the A.T.S. 750 System is switched on.
