Re: Floodplain Determination– John J Stehl– Menallen Township

The Menallen Township application for building permit by John J Stehl has been reviewed in regards to floodplain determination. Utilizing the FEMA Flood Map Service Center, it has been determined that the proposed improvements at 416 Searights Herbert Road, Uniontown, PA, are located in Zone X.

National Flood Hazard Layer FIRMette

The proposed structural improvements are to be built within Zone X and will not be affected by a floodplain. This letter is not a guarantee that the work will be permitted. Any modifications to the proposed improvements location will require further review.

If you should need any additional information, please contact Josh Bukovac at 724-812-5744 or email to [joshbukovac@k2engineering.net](mailto:joshbukovac@k2engineering.net).

Sincerely,  
Josh Bukovac, Floodplain Manager
