404_____ This extremely small coin has on it "DOLLAR" above "1871", that's it, no United States of America or any other words. It has the mintage and looks of a Type 1 \$1 gold coin (1849 – 1854), but with it being an 1871 it should look like a Type 3 \$1 gold coin and it doesn't. It does have 2 holes in it with one of them being very small. You check it out at the auction. It will either keep you in the seats until the end, or be nothing at all.

Many of the grades are a guide for you, please inspect the coins to come up with your own grade.

Terms: Cash, Check or Credit Card. 4% buyer's premium waived for cash or check. These are all collectible coins, so no sales tax to be charged.

Thank you **VERY MUCH** for attending, bidding and buying!!!!
